Winsted Releases Enhanced Version of Free Design Software

MINNEAPOLIS, May 25, 2006 — Winsted is pleased to announce a new release of WELS – Winsted’s exclusive free design tool that has taken the technical furniture industry by storm.

Significant new features in WELS v3.4 include Black System/85 parts, the ability to display images on LCD and monitor screens in layouts, equipment images on rack mount electronics, a new custom rack mount electronics editor, semi-transparent walls, multi-line labels, and numerous new parts and accessories.

WELS – Winsted Equipment Layout Software – is an easy-to-use, interactive software tool that makes technical furniture design, layout, and configuration faster, easier, and more accurate than ever thought possible.

Select components from Winsted’s extensive catalog of consoles, racks, desks, and accessories – then point and click to complete your custom design. WELS provides full 3D design, part lists, design specification sheets, and will export as AutoCAD DWG files for 2D and 3D application.

WELS can be used “out of the box” – with no training – or additional CAD programs or tools.

A world leader in technical furniture and interior design for more than 40 years, Winsted creates ergonomic workspaces that are both efficient and beautiful. Winsted’s diverse product line includes custom and standard rack cabinets, security consoles, command centers and tape/data storage systems.

Winsted catalogs are available in print or PDF format by calling 1-800-447-2257 or e-mailing info@winsted.com. Log on to www.winsted.com/quote for a free online technical furniture quote. Winsted’s free technical furniture design software is available for download at www.winsted.com/wels. For more information on Winsted products, visit www.winsted.com.
