ENCOMPASS-2 WORKSTATION IDEAL FOR ANY ENVIRONMENT

MINNEAPOLIS, November 21, 2006 — From multimedia to video to security and even office settings, Winsted's new Encompass-2 workstations are the perfect fit for virtually any work environment. Encompass-2 workstations are ergonomically designed to enhance performance by surrounding the operator and bringing the work envelope closer.

Encompass-2 workstations are offered in a variety of in-stock configurations or can be customized to the application. Heavy-gauge formed sheet metal legs and uprights together with 16-gauge modesty panels provide a well built super structure with built-in wire management throughout. A graphite nebula surface with black rubber "T" edging comes standard and creates a beautiful and durable desktop finish. For a more decorative look, the Encompass-2 Tailored is finished with custom TruForm side panels and desktop surfaces.

Optional accessories include SlatTrak with articulating LCD arms, overhead directional lighting or task lighting. Details on the entire Encompass-2 series of workstations and accessories are available at www.winsted.com or on pages 132-133 of Winsted's 2006 catalog.

A world leader in technical furniture and interior design for more than 40 years, Winsted creates ergonomic workspaces that are both efficient and beautiful. Winsted's diverse product line includes custom and standard rack cabinets, security consoles, command centers and tape/data storage systems.

Winsted catalogs are available in print or PDF format by calling 1-800-447-2257 or e-mailing info@winsted.com. Log on to www.winsted.com/quote for a free online technical furniture quote. Winsted's equipment layout software (WELS) is available for free at: www.winsted.com/wels. For more information on Winsted products, visit www.winsted.com.
